

# ESCO® Ultralok® Tooth System

ESCO is the leader in innovation and performance for wearparts in the earthmoving industry. Keeping with that tradition, ESCO is excited to introduce the latest breakthrough in construction tooth systems — the Ultralok Tooth system.

Ultralok is an innovative and cost-efficient tooth system that answers customers' needs in any machine application. The revolutionary integrated locking device makes the Ultralok system two pieces – unlike the traditional three piece tooth systems of the past. The Ultralok is truly a hammerless system, not simply a hammerless locking device. Safety is increased, inventory is reduced and field replacement is simplified.

## Features & Benefits

### Improved digging performance

- Better penetration than the competitors through:
  - Lower nose height
  - Smooth point to adapter transition
  - Unique triangular nose shape
  - All new streamlined point shapes

### Easier to use

- Lock integrated into the point
  - Reduced customer inventory items
  - No grabbing the wrong sized lock
  - No losing the lock in the field
- One simple tool operates the system – a pry bar
  - Locks point to adapter
  - Unlocks point from adapter
  - Aids in point removal from adapter

- Convenient lock access for operator

### Increased safety

- Completely hammerless system
  - No hammer needed to lock point to adapter
  - No hammer needed to unlock point from adapter
  - No hammer needed to aid in point removal from adapter
- No hammer means reduced chance of injury

### Longer Wear Life

- Average 14.8% more usable wear metal than competitive systems
- Harder and tougher alloy steel than competitive systems
- Improved penetration aids in wear life increase

### Better Reliability

- 10% more stabilized mating flats than closest competitor
- Reduced locking device loading
- Proven lock materials and assembly process
- Lock is in reduced wear position

### Reduced Labour Cost

- Improved wear life means less frequent change outs
- Integrated locking device
  - Mistake-proof integrated lock reduces change out errors
  - Point installation is easier with less pieces to handle

Ballymount Road, Red Cow, Dublin 22.
